

YAMAHA generators are among the most reliable and efficient professional products.Designed domestic for and use, YAMAHA generators have a robust design that allows them to face any type of environment. Available in gasoline or diesel engines and with a power ranging from 1 to 26 Kva, these generators meet multiple needs.

TECHNICAL CHARACTERISTICS	EDL20000TE
GENERATOR	
Generator type	Brushless, synchronous / three-phase AC
Maximum Power (Kva)	17
Rated Output (Kva)	15,5
Frequency (Hz)	50
Rated Voltage (V)	220 / 380
MOTOR	
Noise Level (Db)	79
Autonomy (H)	17
Fuel Tank Capacity (L)	80
Startup system	Electric
Displacement (cm3)	1001
Engine type	Diesel engine
DIMENSIONS	
Dimensions (Lxwxh) in mm	1380x700x945
Dry weight (Kg)	340
EQUIPMENTS	EDL20000TE
Plug wrench	MOTORS
Handle	✓
Owner's manual	✓
